While this is asking for documents I think everything will be public at some point so I am not sure this would be considered our typical oversight request.

Let me run by Stacey but this will be an OSWER lead and I think Carolyn can be helpful on this when she gets back.

They are asking for a briefing by next Monday. But that is probably not feasible given we won't have all the data by then.

Yes – it's about the spill in Colorado. So we need to get it to Stacey and Jonathan, and we need to get the right group of folks together in the next day or so to talk about how to respond (without pulling people who are actually doing the emergency response).

Nichole – am assuming you and Stacey can help figure out the right people.

Haven't read it yet but assume it's another oversight letter.
